

## Pharma and healthcare logistics

# Seamless healthcare logistics management – for when it matters the most.

Delivering products to patients across Canada and around the world is made more reliable with KN PharmaChain. Get an integrated solution that increases your compliance, mitigates risk, and provides entire supply chain visibility.

From personalized medicine to devices and equipment, you need to deliver products to global locations, often on a tight schedule. Our Pharma experts can handle the specific challenges of temperature, packaging, and handling requirements.

Dedicated account managers cover your whole supply chain from supplier to patient. Regardless of the transportation mode, storage, or compliance level, you get the highest level of precision and reliability.

## Pharma and healthcare logistics

**Compliance is key.** KN PharmaChain operates at every compliance level with GxP certified stations in Toronto and Montreal. Global standardized processes are relentlessly tried, tested and developed to ensure you receive the best service from origin to destination.

### CareTeam

Receive 24/7 help from our CareTeam who monitor the location, temperature and physical condition of your critical shipments.

### Lane and carrier risk assessments

Make transportation risks visible and manageable with our specialized tool KN Risk. Assess the relative risk levels of each lane before you select a route.

### Real-time monitoring

Shipment sensors measure temperature, humidity, location, light and shocks, and pro-actively intervene when deviations are detected.

### Comprehensive GxP service standards

- Facilities with specific temperature controlled cool rooms, cross-docking services, and high security and surveillance
- Direct platform access allowing for short transfers to and from the aircraft
- Services for repackaging, labelling, replenishment of dry ice, gel packs and batteries.
- Import/export customs clearance
- Consolidation and deconsolidation
