We care because you care

Customised logistics solutions
for the wine and spirits industry

VinLog

The VinLog team is at your service to carefully and efficiently delight your customers with their favourite drinks.

Horst Mueller
Global Head
VinLog

“Beverages are people’s business. At VinLog, we deeply understand the drinks industry and work to ensure your products receive the attention they deserve throughout the whole supply chain.”

Our promise to you

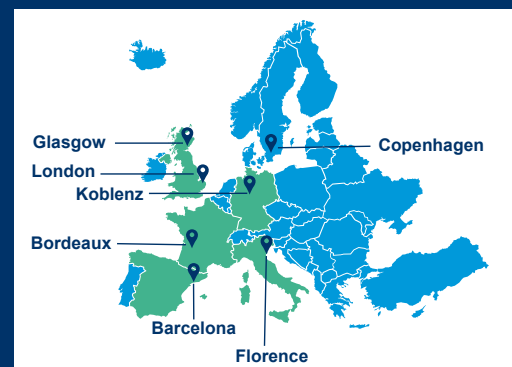

When it comes to favourite drinks, tastes are different. However, the perfect scent is vital to create a memorable experience. We know that wine and spirits are valuable products with special requirements and their quality is directly linked to their transportation.

We understand the complexity of shipping, storing and distributing your products and ensure that they arrive in pristine condition.

We advise you on all matters of the wine, spirits and beverage supply chain, taking into account the particular needs of small and medium-sized wineries, importers, distributors and multinational brand owners.

Our robust processes, experienced specialists and up-to-date technologies support your entire logistics operations so you can focus on growing your business with peace.

VinLog at your service

Tailored supply chain solutions

- With VinLog Tank we guarantee seamless overseas door-to-door transportation of bulk wine
- Rely on an experienced team of certified experts with a dedication for beverages
- Get a one-stop-shop solution that matches your business scope and requirements – no matter the size of your business
- Reap the benefits of our management and operations services that provide complete visibility from the source to the final destination to allow visibility
- Take advantage from our stuffing process to guarantee the correct packing and handling of your shipments, including temperature-controlled transport and door-to-door cargo insurance
- Get access to an extensive global network of dedicated warehouses in all major wine-producing and importing countries
- Monitor your cargo around the clock via online platforms
- Benefit from reliable support for time-critical shipments
- Make use of inhouse-customs brokerage including compliance consulting, Conto Deposito and cross-border services

Cargo handling

From full-container loads (FCL), VinLog Tank (Flexibag), to partial-container loads (LCL) and consolidations, we offer the solution you need. Our team will ensure that your beverages receive the best possible care during the whole journey. For instance, we provide additional special services, like thermoliners and insulation kits, for shipments that need to be dry or temperature-controlled. With our skilled experts handling your paperwork, you also won't have to worry about customs clearance.

Sustainability in logistics

You want to lower CO2 emissions and minimise your environmental impact? We offer you the possibility of shipping your goods in the most environmentally friendly way. Depending on your preferred mode of transport, you have different sustainable options to choose from. We are happy to help you to optimise your supply chain in terms of CO2 emissions.

Our team consists of specialised industry experts who are a part of a worldwide network that ensures the safe and timely delivery of your sensitive products.

Leading technology with myKN – Your online platform to manage your shipments

- One central platform to explore, quote, book and track your shipments
- Possibility to create your own myKN page
- Direct access to your shipments
- Receive a binding quote in a few seconds
- Option to book using a saved quotation
- Choose your requested day of pick up/delivery at time of booking
