

Forest products

Delivering a competitive advantage, no matter where your exports travel.

Whether shipping logs, lumber, pulp, paper, or recycled fibres, you need a logistics partner who understands your unique challenges. We have solutions that match your business and make your supply chain seamless.

With Canada being one of the major forest products exporters, your supply chain depends on innovative and cost-effective solutions. Our team of dedicated experts help you build customized transportation strategies that are product-specific.

Using our global logistics network, you can maximize options and get full visibility at every touchpoint in your supply chain.

Forest products

Efficiently transporting forest products to key markets requires integration and planning. Short lead-times, stock optimization, and special cargo handling require constant attention. Wherever you ship, we have the people, infrastructure, and know-how to keep you on schedule.

Global services

- Guaranteed space with every ocean carrier
- Specialist capabilities and permits for heavy payload containers in the U.S.
- Interim storage in warehouses with rail sidings
- Fumigation and phytosanitary certificate
- Customs clearance
- Real-time visibility with myKN
- Product specific materials handling equipment
- Carbon neutral shipping options for sea containers

Solutions for every commodity

Timber and lumber: Roundwood logs; sawn lumber (SPF); wood-based panels (particle board, HDF/MDF/Plywood)

Pulp and paper: Wood pulp; printing papers; packaging paper and paperboard

Recycled paper: Commitment to environmental and human health protection with full compliance of export regulations.
