

## Sea logistics drayage solutions

# Moving your cargo through every mode of transport.

Sea logistics drayage Solutions (SDS) has become increasingly more important for achieving guaranteed service efficiency for all supply chains. Your cargo is covered at every point – be it local, highway, long haul trans-Canadian or anywhere in North America.

In a fast-paced and complex environment, you want expertise, opportunities for flexible pricing, and varied solutions. With a global logistics network, we can help you in growing markets. Experienced professionals across North America connect with vendors and develop solutions for all forms of container challenges from resources to equipment procurement.

Whether the shipment is moving on a average day, during peak traffic periods, or at times of port and rail congestions, SDS has solutions to keep your supply chain moving.

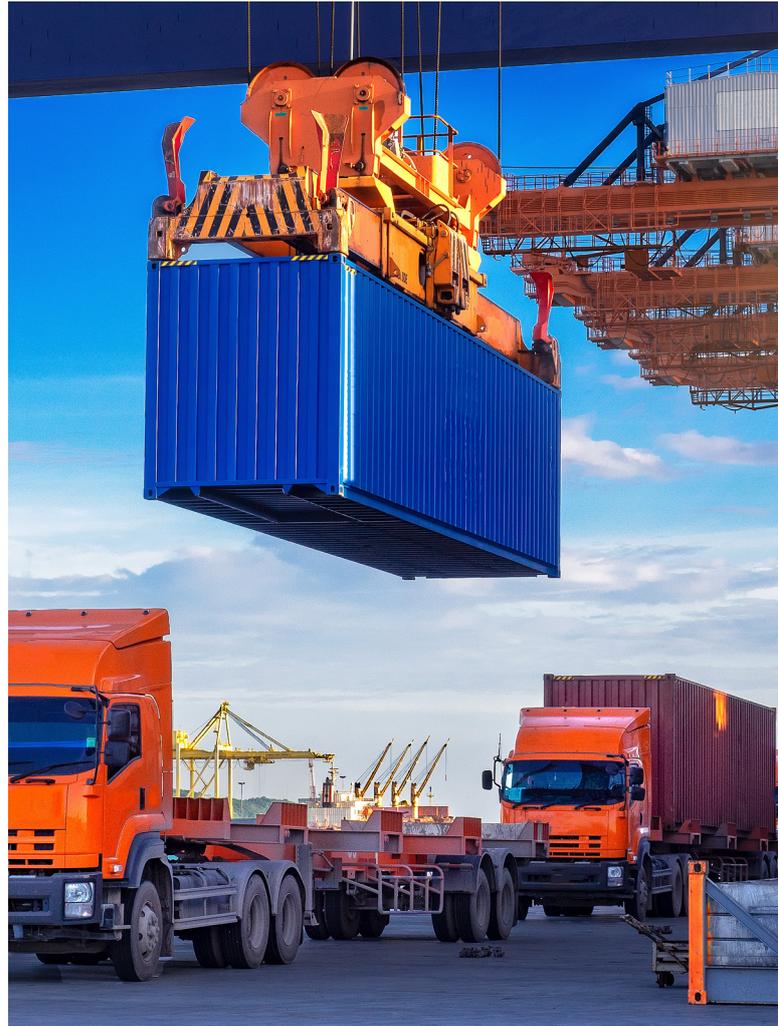

## Sea logistics drayage solutions

**Moving freight across diverse transportation environments is complex.** Whether your cargo travels through varying weather, requires specialized equipment, or encounters complex storage tariffs at port and rail terminals, we offer solutions that are economical and efficient.
