Shipment Visibility From Start to Finish

BENEFITS

- Delivery Time Promise = Time Defined Service
- Immediate all-in price calculation without additional charges
- Visibility of actual cargo movements and planned future movements
- Simplified and standardized invoices
- Proactive alerts in the event of any delays
- Detailed RouteMap planning
- Automated performance guarantee*

ROUTE MAP

An individual route map defining the precise time of each process step is generated for every shipment. The actual shipment is electronically monitored against this route map during transport. Any deviation can subsequently be identified at an early stage, enabling prompt corrective measures. All route maps are fully displayed in Kuehne + Nagel's track and trace system, KN Login, and customers have access via the internet to current transport status data as well as historical and anticipated shipment cycle information. This allows for seamless visibility of the entire transport process.

COMMITTING TO CONTINUOUS IMPROVEMENT. STREAMLINING END-TO-END OPERATIONS FOR TOTAL CUSTOMER SATISFACTION

This is what it means to OUT+PERFORM. It's a philosophy that inspires us to build exceptional solutions that exceed your business and operational goals through:

PEOPLE • PRODUCTS • PROCESSES • SERVICE • INTEGRATION • RESULTS
